

CalcForge — Master Page & Keyword Map (Paycheck Department)

Compiled from the Sub-Niche Build Map and Keyword-to-Page Assignment Map research reports (July 2026). SEO Rank = build priority for a DR-under-10 site (research-based winnability x profitability). [H1] = title/H1 keyword; all others = secondary keywords absorbed via H2 sections, FAQs, and worked examples on that same page. All volumes/KD are directional estimates; validate in Ahrefs/Semrush before building. Excluded per rules: dollar-amount pages, payday/title loan terms, unwinnable head terms.

SECTION 1 — National Single Pages (build ONE page each; never multiply by state)

#	Page / Calculator	Type	SEO Rank	Long-Tail Keywords (research-based)
1	No Tax on Overtime Calculator	National (1 page)	#1 — KD 15-30, immature SERP, rising volume	[H1] no tax on overtime calculator overtime tax calculator, is overtime tax free in 2026, no tax on overtime 2026, overtime deduction \$12,500 cap, how much overtime is tax free, OBBBA overtime deduction calculator, qualified overtime compensation calculator, trump no tax on overtime calculator, overtime tax savings calculator, no tax on overtime phase out, schedule 1-A overtime, w-2 box 12 code TT

17	Generic Federal Paycheck Calculator (EXISTS)	National (1 page)	Aspirational — head term 200-450k/mo, not near-term	[H1] federal paycheck calculator paycheck tax calculator, how much is taken out of my paycheck, paycheck withholding calculator, federal income tax paycheck calculator, W-4 paycheck estimate, how to read my paycheck, federal vs state vs payroll taxes, "\$X after taxes" worked examples (secondary only)

SECTION 2 — State-Scaled Clusters (math/rules genuinely differ by state — legitimate scaling)

#	Page / Calculator	Type	SEO Rank	Long-Tail Keywords (research-based)
18	[State] Paycheck Calculator (5 built, 45 to go)	50 states	Core cluster — KD 30-55, tier-1 states hardest; state-specific differentiators are the winnable angle	[H1] [state] paycheck calculator [state] salary calculator, take home pay [state], [state] payroll tax calculator, paycheck calculator [state] hourly, [state] net pay calculator, [state] salary after taxes, [state] tax calculator paycheck, [state] hourly paycheck calculator, [state] biweekly paycheck, how much is taken out of my paycheck in [state], + per-state differentiators (see Section 3)

#	Page / Calculator	Type	SEO Rank	Long-Tail Keywords (research-based)
19	[State] Bonus Tax Calculator (aggregate method)	50 states	Valid state scaling — KD 35-45, \$4-7 CPC; state supplemental rates genuinely differ	[H1] [state] bonus tax calculator [state] bonus tax calculator aggregate, bonus tax calculator [state], how are bonuses taxed in [state], [state] supplemental wage tax, bonus after taxes [state], [state] aggregate bonus calculator, bonus withholding [state], FAQ secondaries: percentage vs aggregate method, 22 percent bonus withholding, "\$5,000 bonus after tax"
20	[State] Final Paycheck Law page	50 states	Valid state scaling — KD 25-40; interactive tool angle is weak across all incumbents	[H1] [state] final paycheck law final paycheck laws [state], when is my last paycheck due [state], [state] final pay rules, [state] final paycheck fired vs quit, does [state] pay out unused vacation, [state] last paycheck deadline, [state] termination pay law
21	Cost of Living / Salary Comparison [city] vs [city]	Per city-pair	Valid location scaling — KD 35-45; only long-tail city pairs, never the bare head term	[H1] cost of living [city] vs [city] [city] vs [city] salary comparison, salary needed in [city], cost of living comparison [city] to [city], how much salary to live in [city], [city] vs [city] take home pay, moving from [city] to [city] cost, high-value pairs: florida vs california take-home, florida vs new york

SECTION 3 — The 5 Existing State Pages: Full Keyword Loadout (secondaries to add as H2s / FAQs / worked examples)

#	Page / Calculator	Type	SEO Rank	Long-Tail Keywords (research-based)
CA	California Paycheck Calculator (EXISTS)	State page	Vol est. 40-90k head; win the differentiators below	[H1] california paycheck calculator california salary calculator, take home pay california, california payroll tax calculator, paycheck calculator california hourly, california net pay calculator, california salary after taxes, california sdi paycheck deduction, ca sdi rate 2026, casdi withholding, what is sdi on my paycheck, california disability insurance withholding, california daily overtime calculator, ca paycheck calculator, los angeles / san francisco / san diego salary calculator
NY	New York Paycheck Calculator (EXISTS)	State page	Vol est. 20-50k head; NYC/Yonkers angles are the crack	[H1] new york paycheck calculator nyc paycheck calculator, new york salary calculator, take home pay new york, new york payroll tax calculator, nyc local income tax, yonkers tax calculator, yonkers surcharge, ny sdi, ny paid family leave calculator, ny pfl deduction, it-2104 withholding, paycheck calculator nyc hourly, manhattan / brooklyn / buffalo take home pay
PA	Pennsylvania Paycheck Calculator (EXISTS)	State page	Vol est. 10-30k head; local EIT is the strongest differentiation angle	[H1] pennsylvania paycheck calculator pa paycheck calculator, pennsylvania salary calculator, take home pay pennsylvania, pennsylvania local tax paycheck, pa local income tax calculator, local earned income tax EIT calculator, pennsylvania 3.07 flat tax, philadelphia wage tax calculator, pittsburgh EIT, act 32 local income tax, PSD code, pa hourly paycheck calculator
TX	Texas Paycheck Calculator (EXISTS)	State page	Vol est. 30-70k head; no-income-tax framing	[H1] texas paycheck calculator texas paycheck calculator hourly, texas take home pay, texas take home pay no state tax, texas salary calculator, texas net pay calculator, texas payroll calculator, texas paycheck calculator no state income tax, houston / dallas / austin / san antonio paycheck calculator

#	Page / Calculator	Type	SEO Rank	Long-Tail Keywords (research-based)
FL	Florida Paycheck Calculator (EXISTS)	State page	Vol est. 20-50k head; no-income-tax + relocation comparison angles	[H1] florida paycheck calculator florida take home pay calculator, florida paycheck after taxes, florida salary calculator, florida net pay, florida hourly paycheck calculator, florida payroll calculator, florida paycheck no state income tax, miami / orlando / tampa / jacksonville paycheck calculator, florida vs california take home, florida vs new york take home

SECTION 4 — Do NOT Build (research-flagged)

Doorway risk if multiplied by state (federal math identical in all 50 states — build as ONE national page only): FICA, 1099/self-employment, salary-to-hourly, hourly-to-salary, overtime math, gross-up, pay raise, 401k impact, no-tax-on-overtime, no-tax-on-tips, biweekly conversion, prorated salary, double-time.

Unwinnable head terms for a DR-under-10 site (do not target as primaries): salary calculator (~150k), paycheck calculator (bare, ~200-450k), hourly paycheck calculator (~30-60k), 401k / retirement calculator, W-4 / tax withholding estimator (IRS.gov owns it), tax refund / income tax calculator, tip calculator (restaurant gratuity), cost of living calculator (bare).

Excluded by your rules: "\$X after taxes" standalone dollar-amount pages (permitted only as worked-example secondaries), payday / title loan / cash advance terms.

Build order (from the research): (a) the two OBBBA pages now — the low-KD window closes as DR-70+ brands move in (deductions sunset Dec 31, 2028); (b) load the 5 existing state pages with their Section 3 differentiator keywords; (c) mid-tail nationals #3-#8; (d) remaining nationals; (e) state-scaled bonus tax + final paycheck law clusters state-by-state; (f) remaining 45 paycheck state pages in batches. Threshold rule: if real Ahrefs KD comes back above ~30-35 for any primary, demote it to secondary and lead with a question-form long-tail instead.
